

**ENGINEERS ARRIVE  
HERE ON WEDNESDAY**

Latest Information Is That Tulsa's Own Company Will Reach City on That Morning.

**ARCH OF TRIUMPH RUSHED**

Three Shifts on Duty to Insure Completion by Tuesday—Carson Post Completing Plans.

Company B, Tulsa's own, of the 11th Engineers will arrive in the city Wednesday morning.

This is the latest information received by the Carson post of the American Legion. It is thought the men will leave Camp Merritt, New Jersey Monday en route to Camp Dix, New Jersey, where they will be demobilized. If the engineers force Monday they will probably arrive in the city Wednesday.

Work on the arch of triumph which is being erected on Main between Third and Fourth streets is being rushed; three shifts are being used to have the arch completed at the earliest possible time and the architects who have charge of the construction estimate it will be completed by Tuesday.

The various civic clubs of the city have taken over the decoration part of the program. Every business house in the city and the streets along the line of march will be decorated. Flags and bunting will be hung in the railway car wires and every feature which will add to the attractiveness of the city will be taken care of by the post.

This is the first reception of which the local legions have been called upon to take charge and it is the purpose of the post to give the largest reception to the engineers which has been given in.

The parade will be one of the largest ever held in the city. Three blasts of the fire whistle will announce the arrival of the train conveying the company and all whistles in the city will blow from the time the men depart from the train until the parade is over.

The Joe Carson post will march in the parade in a body as an honor guard to the company. Every member will be dressed in uniform. It was decided by the post that there would be no one in the parade who did not wear a uniform and only men and women who were in the service during the war will march.

Special arrangements have been made to take the boys off to Convention hall where a number of automobiles will be waiting to take them on a tour of the city. It was decided by the post to do away with speaking so the boys could have the longest possible time to spend with friends and relatives.

**Pass Through Arch.**

The arch of triumph will contain "Welcome" in large letters placed near the center of the arch and the boys will pass through the arch white on parade. The legion will halt at the arch and stand at "attention" until the engineers pass through the mammoth memorial and fall in to the rear of the company.

On account of the short period of time that the engineers will be in the city the "war mothers" have arranged to entertain their sons with a social hour at the Legion hall at the corner of Third and Boulder. Following the automobile tour of the city the boys will assemble at the west side of the Frisco station and march to the Red Cross canteen where they will be served with coffee, sandwiches and cake by the members of the canteen service.

The parade will form at the Frisco station on Main street and the heroes will march south on Main street to Seventh street, east on Seventh to Boston; north on Boston avenue to Fourth street; east on Fourth to Cincinnati avenue; north on Cincinnati to Third street; west on Third street to Main street; north on Main street to Brady street; west on Brady to Convention hall, where the boys will be dismissed.

**H. S. JOURNALISM TEACHER LEAVES FOR VACATION**

Miss Grace Moulton, teacher of journalism at the high school and head of the editorial staff of "Tulsa School Life," left last night for her home at King City, Mo., where she will spend the summer vacation.

"School Life" is the organ of the journalism department, which brought to such a degree of excellence the past year that it was awarded first prize as the best school publication of the state at the state contest of the arts and sciences held in connection with the track meet at Oklahoma university two weeks ago.

## CITY BRIEFS

THE MARINE corps has issued a call for 1,000 men, veterans in the regular service or the service of the reserves, to report to the city for a period of four years.
